## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-12, drawn to a process for the manufacture of flexible thin-walled articles comprising: injection moulding a body of the article from a plastics material; adapting the body to form a base of the article; and annealing the plastics material.

Group II, claim(s) 13-24, drawn to a process for the manufacture of flexible thin-walled articles including injection moulding a blend of (a) at least one polymer and (b) at least one high melt flow compatible polymer having a melt flow index (MFI) of greater than 100.

Group III, claim(s) 25, drawn to a process for the manufacture of flexible thin-walled articles including: injection moulding a blend of (a) at least one polymer and (b) at least one compatible polymer, wherein at least one of (a) and (b) includes a polypropylene having varying tacticity within its structure.

Group IV, claim(s) 26, drawn to a process for the manufacture of flexible thin-walled articles including: injection moulding a blend of (a) at least one polymer and (b) at least one compatible polymer, wherein the extractables content for the blend and/or the flexible thin-walled article manufactured is less than or equal to 2.0 wt % as measured by ASTM D-5227.

2. The inventions listed as Groups I, II, III, and IV do not relate to a single general inventive concept under PCT Rule 13.1 because under PCT Rule 13.2, they lack the same or corresponding special technical feature shared for the following reasons: there is no common special technical feature shared between Group I and Groups II, III, and IV.

3. A telephone call was made to Edward Bachand on December 4, 2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ROSHANAK ARYAN-NEJAD whose telephone number is (571)270-7665. The examiner can normally be reached on M-F, 8:30-6:00, except every other Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Milton Cano can be reached on 571-272-1398. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
